

PEGASUS Workshop

The potential for provision of environmental and social benefits through farming and forestry in remote and marginal areas, including mountains

Wrap up session

Emil Erjavec

30/11/2017

Vienna, Austria

The questions of the day?

- How to strengthen the provision of **environmental and social benefits** by land managers?

Key fields of discussion:

- **EC Communication: Future CAP**
- **Mountainous and remote areas**
- **Policy design and impacts**

Future CAP!

- New (3th) **paradigmatic change of the CAP**, or the last missing opportunity...
 - New strategic planning at the member state level including 1. and 2. Pillars
 - new environmental package
- ... first reactions, mostly not positive:
 - Opportunity or a Treat??

Mountainous and remote areas?

- **ANC** under social, natural,... pressures! **CHANGE!**
- **Public money** (ANC, AEM, InvSupport) not enough?
- **Collective actions** with the smart ideas!
- **Market / public** solutions!
 - it should be market driven!
- Role of **facilitators**,
 - idea developing and implementing person...
- Specific support is missing!

Policy evolution?

- How to **support** cooperation and collective actions more efficiently?
- How to train and assist the ideas developers and implementators?
- Move a part of (ANC?)/AEM support to collective solutions?
- How to improve the **strategic programming and management**?
- ... a lot of work in front of us...

Take home messages?

- **Policy paradigmatic change in CAP**
 - not in mechanisms, but in way how we are doing policy
- **Ideas innovation**
 - Also for policy instrument!
- **Cooperation** –
 - collective actions as main concept of ideas implementation
- **Leadership!**
 - All levels: administration, farmers, areas, sectors, ideas...
 - enthusiasm, patient, knowledge
 - How to support the leadership?!

Next steps...

- **PEGASUS**
 - Final meeting in Brussels (Feb 2018) – in the right time at the right place: some ideas from the research and accumulated knowledge
- **We all involved in the CAP should used this time...**
 - without better CAP also good idea about the Europe will die...
- **Thank you Thomas and the team...**
